---

### Objective

Proactive, collaborative, and user-oriented front end developer with 5+ years' experience leveraging programming skills to deliver custom software solutions to support company goals. Efficient team player with React Js and React Native proficiencies, track record of collaborating via Git / GitHub, and ability to work independently or as part of a team to complete development tasks while meeting delivery deadlines.

---

### Experience

01/06/2022  
- Present

#### Osiz Technologies

SENIOR PROGRAMMER

##### Project - Progressive Web Application

PWA is developing web applications to provide traditional web apps the look and feel of native apps. This app includes music player, e-commerce, calendar, chat etc. where produce a mobile application in React Native by data provided from website

##### Technology Used :

React Native, Redux Toolkit, CSS, React Native Paper, React Native Track Player

##### My Role

Developed end-to-end React Native mobile application with backing of frontend and backend developers

Currently working on music player App kind of spotify with more number of songs uploaded, playlist, favorite, category, recent, song notification etc., which holds 10 different themes.

Receive input from user with support of frontend and backend developers and create a user friendly mobile application by user inputs with dynamic build at each time

Worked close with frontend and backend team to optimize Reactnative mobile application

#### Osiz Technologies

SENIOR PROGRAMMER

##### Project - Parifi

Parifi is Crypto Trade site with Ethereum Blockchain Decentralized, Polygon platform for exchange, profitable farming using BEP-20 tokens, which holds entire concepts of block chain as trade, liquidity, swap, borrow, lending, deposit, withdraw, stake and governance. The site has its own token (MATIC) and include a two type of trades where regular Spot, Limit, and stop and other one is margin trade

##### Technology Used

React Js, WEB3, Smart contract, HTML, CSS, Redux, Meta mask, Mobile Wallet

##### My Role

Developed end-to-end React js website provide real-time delivery tracking, management and analytics Where use can add and remove fund in liquidity pool for interest, swap currencies, stake fund and get rewards

To service trading operations, user can be borrower and also lender where lender can provide fund by adding Matic in pool for some interest and borrower can use the fund for trade, swap and return fund with interest rate

Worked close with Smart contract team to optimize web3 concept, smart contract and payment integration using metamask and mobile wallet connection with implement frontend

**Osiz Technologies**  
SENIOR PROGRAMMER  
**Project - Gaming Akhada**

Gaming Akhada is a fantasy sports website like Dream11 where user can select player and create a tournament with some bid amount to win , when players get high score they will get rewards as cash. Where the site holds news and forums with comment section, chat with all users,players statistics etc..

**Technology Used :**

React Js , HTML,CSS,Redux,Firebase,Socket

**My Role**

Developed end-to-end React js website provide real-time delivery tracking,management and analytics  
Worked close with design team to optimize usability and implement frontend  
Implemented websites, mobile view, and landing pages from concept through deployment.

01/10/2019  
-  
15/03/2021

**Maventricks Technologies**  
FRONT END DEVELOPER  
**Project - Wizzor and RentMyGodown**

Wizzor is the educational arm of Higher Education dedicated to making Wide-Ranging mobile application for students all primary sources available on-demand to market  
RentMyGodown is a Real Estate App where users can Rent and sell Godowns

**Technology Used :**

React - Native , Javascript , Android studio , Xcode

**My Role**

Work as part of a team to build React Native iOS / Android applications for FullStack's cliets  
Optimizing UI/UX designs with smooth animations and transitions that provide an excellent user experience for both Android and  
Ios Development  
Integrate third-party API's with native modules when required

01/08/2019  
-  
29/02/2020

**Maventricks Technologies**  
WEB DEVELOPER  
**Project - Udyoga**

Udyoga is Job search Web Application where Recruiters can post a job and seekers can apply jobs of the recruiters

**Technology Used**

HTML , CSS, Javascript , JQuery, and PHP Developer (Basic)

**My Role**

Determining the structure and design of web pages.  
Ensuring web design is optimized for smartphones  
Building reusable code for future use  
Optimizing web pages for maximum and scalability  
Makes code for jobs posting and applying jobs in application for Recruiters and Seekers ,handle admin panel with PHP connecting to DB (MySQL)

01/03/2019  
-  
31/10/2019

**Maventricks Technologies**  
FRONT END DEVELOPER  
**Project - Velaikaaran**  
Velaikaaran is Service Application for Electronics which widely used for book a person for Repair and services

**Technology Used :**  
React-Native , Json , Javascript , Php , codeignitor , Mysql , Android studio , Xcode

**My Role**  
Roles Player : React, Work as part of a small team to build React Native iOS / Android applications for FullStack  
Optimizing UI/UX designs with smooth animations and transitions that provide an excellent user experience for both Android and ios Development  
Integrate third-party API's with native modules when required  
Experience on Web Services Integration (Rest) ,Json Pharsing , Node.js ,Npm and DB connection

01/11/2017  
-  
31/07/2019

**Maventricks Technologies**  
WEB DESIGNER  
**Project - Biddon and PennyProBid**  
Biddon and PennyProBid is a Bidding application for various plots

**Technology Used**  
HTML , CSS , Javascript , Jquery , Adobe Photoshop(Basic)

**My Role**  
Roles Played : Designer & Tester  
Determining the structure and design of web pages.  
Striking a balance between functional and aesthetic design  
Ensuring web design is optimized for smartphones  
Building reusable code for future use  
Optimizing web pages for maximum speed and scalability  
Utilizing a variety of markup languages to write web pages

Education

06/04/2016

**Cms College Of Engineering**  
BE (CGPA - 6.6)

16/04/2012

**PKN Higher Secondary School**  
HSC (CGPA - 6.1)

29/04/2010

**PKN Higher Secondary School**  
SSLC (CGPA - 8.2)

Skill

- React Native
- React Js
- HTML 5
- CSS
- Jquery
- JavaScript
- Redux
- Android Studio
- Xcode

Language

- Tamil
- English
- Hindi
- Kannada

Personal Details

- Date of Birth : 23/08/1994

- Marital Status : Single
